

hand, the gallant Frenchmen all rose and bowed to the ladies.

One of the interesting side lights of "Gentle" is that it had the effect of leaving the British treasury poorer by what, under ordinary circumstances, would have been a ten dollar fine.

A Frenchman was summoned to the Kingston Police Court for driving his automobile at an excessive speed, but the Chairman said that, having regard for the fact that many of the defendant's countrymen were now on a visit to England and that the defendant did not know the laws of the country, the summons would be dismissed.

Balfour Speaks.

The series of festivities in honor of the visit of the French fleet was wound up this afternoon by a luncheon in the House of Commons, given by members of both Houses to Vice-Admiral Callard. The toast proposed and honored bore testimony to the warmth of the entente cordiale, which had received such a fitting illustration by the interchange of visits of the fleets at Brest and Portsmouth. Premier Balfour, many members of the cabinet and most of the leaders of the political parties were among the hosts, and their guests were conducted to the banquet hall to the strains of "The Marseillaise," never before heard within its walls.

After toasts to King Edward and President Loubet had been honored, Mr. Balfour proposed "The French Navy," and in an important speech said he regarded to-day's gathering as a harbinger of peace of peace in the East, peace in the West and peace of the world over—and he was confident that no greater security for the greatest good of all could be found than in the warm and personal friendship of these two great nations of Western Europe, who had in the past found themselves too often divided, but who in the future would be able to feel that their world interests were identical and that they had no rivalries over which to fight, but that they had great deeds to perform, for the attainment of which meetings like the present afforded the greatest security.

Vice-Admiral Callard, responding, spoke of the ineffaceable recollections of his visit of the fleet to England and of how greatly he and his fellow officers appreciated the remarks of the Premier.

COWES' BRILLIANT SOCIAL FUNCTION

Lady Arthur Butler, who had with them their very pretty daughter, who is coming out next season; Mr. and Mrs. Cyril Potter, Lady Oxford, who has been stopping at East Cowes Castle with Lord and Lady Gort; Lord and Lady Iveagh and Lady Rosemore, with her cousin, Miss Just.

Baron De Forest's Yacht.

Prominent also among the entertainers have been Baron and Baroness De Forest, whose beautiful yacht, the Honor, was anchored just a little way out from the castle.

The Honor, I am told, made a splendid trip around to Cowes from the coast, although she encountered a very heavy swell in the North Sea, but she is considered a very fine boat, indeed.

Lord Crawford was there, too, on board the Valhalla, that magnificent ship, towing like a giant over the smaller craft. It is usual for Redfern, Morgan and Bence, the well-known jewelers of Cowes, to prepare some dainty mementos of Cowes week, mostly with a view of capturing the fancy of the American visitors, but this year all that was changed. France, naturally, for once being honored by their inventiveness.

Very expensive some of these little mementos were, but they were to be seen worn all over the grounds of the yacht, and after the first day of the week. For instance, there was a beautiful gold bracelet in a double row of enamel flags of all countries and beautifully carried out. On the reverse it bore the name of the country to which it belonged. Other trifles were to be found in the shape of sleeve links, scarf pins and buttons, with the British and French flags in enamel and decorated either with pearls or diamonds, sapphires and rubies, in honor of the French national colors.

Society in Cruises.

When Thursday dawned there was a change in the appearance of the roads, the French fleet having departed for Portsmouth.

Of course, all the yachts and other craft defied their brilliant clothes, giving the bay a much less crowded appearance, but the gaiety continued, and many very pleasant lunch parties were made up for the races, notwithstanding the choppyness of the water that day.

One of the biggest parties of the day was that given by Mr. and Mrs. Miller Mundy on board the Narcissus, which included the Misses Naylor, Gladys Farquhar and Gwenfa Williams.

After lunch the Narcissus went off for a cruise round the island, which proved most delightful. The Narcissus came in for much admiration. She is said to be a model sea boat in every way.

Another big luncheon party of the day was given by the Hon. and Mrs. Bence, who were present were Lady Londonderry, Lady Arran and Lady Hindlip.

In the afternoon many people came ashore from their yachts to take tea with Lord and Lady Iveagh at their pretty house behind the royal yacht squadron.

Among those who came was the Duke of Connaught, who remained quite a long time.

There is less than ever to chronicle

and the total of telegrams is continually growing.

To-day, for instance, there are dispatches from Lucerne, Royan, Wiesbaden, Vichy, Frankfurt on the Main, Rheims, Brussels, Dijon, Interlaken and other places, reporting the arrival of more than half a hundred automobile parties.

Mr. Marshall Field and family arrived yesterday at Interlaken from Vevey. Mrs. Devereux Clapp was at Geneva earlier in the week, going on thence to Aix.

Mr. William H. Butler, of New York, accompanied by his sister and his niece, Mrs. and Miss Butler Burke, have left Dieppe for an automobile tour through France and Germany.

Mr. and Mrs. Charles Knox and Miss Edith Van Von New York, reached Lyons from Paris on Wednesday and their way to Aix in an eighteen-horse-power motor.

Mr. and Mrs. Jules Montant have been reported from Frankfurt on the Main, traveling in an eighteen-horse-power Panhard, and Mr. Albert Shattuck has arrived at Franzensbad on a thirty-horse-power machine of the same make.

The Duchess of Manchester has arrived at Cautelets in a C. G. O. thirty-five-horse-power automobile.

Mr. and Mrs. Alfred Sugman have arrived at Lyons from Paris on Wednesday and their way to Aix in an eighteen-horse-power motor.

about the movements of American visitors in London for the simple reason that they are so few.

Mr. Whitelaw Reid has been down looking over West Park, Amptill, Bedfordshire, which is now to let, with a view, it is said, of tenantry that beautiful residence.

West is the seat of the late Earl Cowper which has now become the property of "Brom" Herbert. If the American Ambassador takes West, with its famous gardens, with that and Dorchester House, he will be better housed in this country than any one of the other ambassadors.

Among the arrivals of the week are Mr. and Mrs. Jay Gould, who came over from France, having traveled from the coast in their automobile. They stay in London, however, is to be very brief.

Other visitors who arrived in their automobile, a forty-five-horse-power Mercedes, were Mr. and Mrs. James J. Moore, of Chicago, who landed at Plymouth from the Kroppings, and did the remainder of the journey to London as stated.

Mr. and Mrs. T. Hudson, who have been away on a long automobile tour, have returned to London for a little while.

Mr. and Mrs. R. D. Drenn, who have been at Dharid, have returned to Clarence's Hotel.

Mr. Thomas Newcombe, of New York, who has been on the continent, has returned to the Savoy.

Mrs. F. W. Andrews and Mr. and Mrs. Paul A. Andrews, of Newport, have returned to London.

Mr. James K. Hackett has arrived from Carlsbad, but intends leaving for the United States next Wednesday.

Mr. S. Uhlmann, of New York, has also returned to London from the continent preparatory to sailing for home.

Automobile Tours.

There would appear to be a constant increase in the number of Americans who are touring Europe in automobiles. Daily dispatches chronicle their movements,

Paris, August 12.—There is no falling off in the number of American arrivals in Paris. However, the majority of these visitors are merely passing through to fashionable summer resorts.

Among these Alex-Baltes appears to be enjoying a considerable amount of American nation, and it was with the arrival of King George, of Orange, and on the evening of his Majesty's first appearance at the restaurant of the Cercle, the scene presented was very brilliant.

Mr. and Mrs. Charles Carroll had a party of eight, including Count Gnanotti and Prince Orloff. General Winslow had a large party, and Mr. E. Clarence Jones was entertaining the Comte and Comtesse de Rougemont, and the latter's mother, Mrs. Devereux Clapp. Others seen were Mr. Peter Moller and Mr. and Mrs. Ruthven Pratt.

Mr. and Mrs. Charles Carroll, and their son have left Aix in the forty-horse-power Leon Bolles automobile for Geneva. From there they intend going to Lucerne, Basle and Paris. After a few days in Paris they will go to Baden-Baden, and later on to Biarritz.

Recent arrivals at Aix include Miss May Van Allen, General and Mrs. Varnum and Mrs. Griswold Gray.

Mr. Allen died at Aix on Tuesday. His wife and sister, Miss Laura Allen, who were called here suddenly from Paris, were with him at the end.

Miss Emily Taylor has left for Paris. She will shortly go to Dieppe. Mr. Carroll and his sister, Miss Rita Carson, who have been visiting Mrs. Neilson Brown at her villa, have left Aix for Fiesch.

RICHMOND AT CLOSE OF EIGHTEENTH CENTURY.

This valuable painting is the work of Albert C. Platt and was executed in 1798. For many years it has been an object of much interest at "Brook Hill," but the outlines gradually became so indistinct that it was finally difficult to determine what was pictured.

In restoring it to almost the distinct-

ness and freshness of the day when it was finished, Signor Charles Chiantelli, an accomplished artist of New York, has done a remarkable work. It is almost beyond the understanding of the lay mind how the faint objects and infinite detail in the original could be brought out so faithfully and prominently.

Signor Chiantelli has also restored a handsome portrait of the Marquis de La Fayette, by Charles Wilson Peale, now in the possession of the Virginia Historical Society. The portrait was executed in 1777, representing the great Frenchman as a young man.

famous Chamonix Aguilons.

Latest arrivals at Territet include Mr. P. Oppenheim and Mr. and Mrs. D. E. Valable, of New York; Mr. B. Barton Holmes, Mr. and Mrs. Marshall Field and Miss Elkins, of Chicago; Mr. and Mrs. Max M. Stern and Miss Stern, of New York; Mrs. T. P. Gadsden and Colonel and Mrs. Newbold, of Washington.

St. Moritz.

"Well known faces abound at St. Moritz just now," writes a correspondent. "During a walk one morning I met the Prince and Princess de Gramont-Chiny, General Lucien and Mrs. Warren, Mr. and Mrs. Luther Kountze, Mrs. William McCall Biles, Mrs. B. Bend, Miss Bend, Miss Whitney, Mrs. Frank McLaughlin and Mrs. Clarence Dewey."

"The Duc de Vallombrosa and Mr. Harold Winthrop drove over to St. Moritz from Maloja for a few hours the other day. The latter returns soon to America to prepare for his last year at Yale."

"Mrs. George B. McClellan, widow of the general, is expected at St. Moritz at the end of the week."

"Commander Elbridge Gerry and family have been driving about the neighborhood daily."

Lucerne.

From Lucerne, a correspondent of the

market, and the milk so ordinarily collected, even by respectable milk dealers, contains a considerable number of germs derived from the intestines of the cow.

By careful collection and cleanliness in regard to cattle and in regard to the cowshed, these can be reduced to a minimum, and if the milk is immediately cooled and then placed in sterilized bottles and kept cool these germs will not multiply to any large extent.

What the committee purposes to do is to purchase from farmers whose cows are free from tubercle such quantity of milk as might be necessary, to have the milk collected under the immediate supervision of its own officials, to keep it as far as possible from contamination in the cowshed, and to have it at once cooled and bottled by its own officers.

It is then proposed to offer the milk for sale in shops belonging to the corporation.

SENATOR MARTIN WORKED THE TRICK

He Quickly Secures An Opening Through Government Dyke.

THE BOAT CLUB REGATTA

Many Excursion Steamers and Trains Will Bring the Crowd.

(Special to The Times-Dispatch.)

WEST POINT, VA., Aug. 12.—Many of the New Kent people, as well as those of West Point, are much pleased with the prompt action of Senator Martin in securing for them from the War Department, the privilege of an outlet through the dyke placed in the York River several years ago by the government.

Mr. Burke, of New Kent, secured a petition from many citizens, which was given to Mr. Julian Bagby, Secretary of the Board of Trade of West Point, who forwarded it to Senator Martin.

Martin lost no time seeing the Secretary of War and showing him the injustice of keeping said dyke closed.

On June 24th the secretary notified Mr. Martin it should be opened. On June 25th Mr. Martin notified Mr. Bagby, and in a few days the people were going through the desired opening, which saves many several miles of plugging the Baptist Sunday-school went to Walkerton, up the Mattaponi River, Thursday, August 10th.

The party was conveyed in a schooner, towed by the tugboat, Lucerne. The trip back and forth took, each way, about five hours. Among the amusements of the day was a game of baseball between the West Point and Walkerton teams, resulting in a score of 10 to 4 in favor of West Point. The party reached West Point after eleven o'clock at night, reporting a pleasant day.

Mr. Edwards, town sergeant of West Point, went to Urbanna during the week ago for Ben Braxton, colored, who some time back had been in the West Point and took there from the sum of \$25.00. Braxton left West Point and hid himself in Urbanna after the theft. He was arrested by Sergeant O. J. Palmer, of Urbanna, and lodged in Saluda jail for safekeeping until the authorities here could take him in charge. He was tried at West Point and sent to jail for ninety days.

THE REGATTA
